Key Indicators – Implement Enterprise Management

Personnel Security Costs, 1995-2012

NOTE 1: Both DOD and DOJ had significant increases in personnel security costs in FY 2001.

NOTE 2: Intelligence Community personnel security costs not included prior to 2006.

NOTE 3: Spike in FY 2010 total is attributed to DOD – “Personnel Security Investigation costs are now fully consistent with direct DoD tabulations of funds paid to the Office of Personnel Management for that purpose. Estimates for years FY08 through FY10 averaged around \$220 million more than had been previously estimated. Personnel Security costs were higher than previously reported for FY09 because of the baseline changes, and between FY09 and FY10 costs increased by around \$50 million. Of that, \$38 million is from increased payments for security investigations, with the remainder resulting from increased numbers of civilian O80 security specialists supporting the clearance processing.”
